Post Graduate Year 1 (PGY1) Pharmacy Practice Residency

This is an opportunity for a motivated individual to gain experience in many facets of primary care/ambulatory care pharmacy in Central Florida. The resident will actively provide pharmaceutical care to patients and collaborate with other health care professionals. Anticoagulation Management Service, Transition of Care Clinic, preventative health consults, Lipid Clinic, Smoking Cessation Clinic, health and wellness screenings (i.e., BP, glucose, osteoporosis, SkinScope, etc.), inpatient and outpatient medication dispensing/counseling, drug information/continuing education, and community outreach programs will be the main areas of focus. The development and completion of an original research project suitable for publication is a required component for successful completion of this ASHP-accredited residency. Teaching opportunities, including student preceptorship and a teaching certificate, are also available.

Stipend: $43,000 per year
Travel fund and 12 months health insurance at a reduced rate
Position available July 1, 2015 to June 30, 2016

Interested candidates need to submit the following information to PhORCAS by January 2, 2015.
1. CV (including future rotations)
2. Official transcripts
3. Three PhORCAS recommendations using the standard form in PhORCAS (at least 2 from clinical pharmacists)
4. One-page essay discussing what you envision your career path (including professional practice setting) to be in 3 years and in 10 years.
5. A current photograph

Applicants must register with the Match if they are seeking a PGY1 Residency at Florida Hospital-Celebration Health. If invited for an interview you will be required to give a 8-10 minute presentation on an ambulatory care topic.

PGY1 Pharmacy Practice Residency  
2015 - 2016

**INTRODUCTION:**

The goal of this ASHP accredited residency is to prepare the candidate for pharmacy, as it will be practiced in the 21st century, with an emphasis on the pharmaceutical care approach to patient care. The resident will be able to proficiently practice clinical pharmacy in an ambulatory care/family practice setting, in addition to staffing in an inpatient and outpatient pharmacy setting.

**OUTCOMES:**

Anticipated outcomes for the resident include:

1. Manage and improve the medication-use process.
2. Provide evidence-based, patient-centered medication therapy management with interdisciplinary teams.
3. Exercise leadership and practice management skills.
4. Demonstrate project management skills.
5. Provide medication and practice-related education/training.
6. Utilize medical informatics.
7. Conduct pharmacy practice research.
8. Contribute to formulary decisions.
9. Provide drug information to health care professions and/or the public.

**QUALIFICATIONS:**

The applicant should have or be in the process of obtaining a Doctor of Pharmacy degree from an accredited college of pharmacy. Eligibility for Florida licensure is essential for fulfilling the requirements of the residency; resident must obtain Florida intern license prior to June 15, 2015 and Florida pharmacist license by August 31, 2015. Program will not be sponsoring visas in the 2015-2016 program year.
REQUIRED ROTATIONS:

- Orientation to all areas 10 weeks
- Outpatient Clinical Pharmacy Services (Lipid Clinic, Coumadin Clinic, Transition of Care Clinic, DVT Clinic, Smoking Cessation Clinic, preventative medicine consults, Weight Loss Clinic, Community health fair events/screenings)
