PURPOSE: A guideline to Professional Appearance at Florida Hospital DeLand (FHD).

GENERAL STATEMENT: FHD employees are an important part of the hospital’s public image. Courteous, friendly and efficient staff members contribute greatly to the impression made in daily contact with patients, visitors and fellow employees. Proper dress, personal grooming and overall appearance adds much to the positive, which the public has of our hospital.

For these reasons, FHD requires all employees follow the dress code program and the dress code guidelines for the department they work in. Departmental guidelines may be more restrictive for safety and/or health purposes. An employee who fails to follow this standard should expect to be requested by his or her respective supervisor to correct any inconsistencies. It is the responsibility of department directors to counsel with employees whose appearance is not satisfactory.
