Florida Emergency Physicians, 2012 Philanthropists of the Year

PAGE 3
Dear Friends,

Florida Hospital is blessed to receive generous philanthropic support from the community. This investment represents a desire by community members to ensure Central Florida has the highest quality healthcare available for our family, friends and neighbors. A year and a half into our five-year $150M Healthy 100 Fundraising Campaign, we have raised $80 million with three and a half years remaining.

I am most grateful for the outpouring of support from you and more than 11,000 individuals who have made gifts to benefit the health and healing mission of Florida Hospital. Your giving spirit has impacted the lives of thousands of patients in Central Florida and beyond.

As I reflect on last year, I think of Ed Gilbert, The 2012 Volunteer of the Year. Ed is the perfect example of someone who gives of his time, talent and treasure. His passion for making a difference, led him to raise significant dollars—from large and small gifts alike—to help more than 4,000 newly diagnosed cancer patients at the Florida Hospital Cancer Institute (FHCI). With the help of Ed and other Foundation Board members, the FHCI (3rd largest cancer institute in the country) has provided 800 free mammograms, resulting in 28 women saved through early detection and treatment.

I also think of Florida Emergency Physicians (FEP), our Philanthropists of the Year, who have dedicated their lives to providing emergency care to patients in need. This group of physicians is so passionate about helping their patients that they generously donated $2 million in support of the Emergency Medical Residency Program and the Emergency Department at Florida Hospital. Their support helps Florida Hospital to train 18 physicians each year in emergency medicine while also supporting the needs of the emergency department. FEP treated nearly 440,000 patients in 2012.

Your generosity helps extend the healing ministry of Christ to thousands of patients at their time of greatest need. Many thanks to each of you for partnering with us to help make Central Florida a better place to live.

Your Generosity Heals,

David S. Collis
V.P. and Chief Development Officer

For more information, call Tamara West at (407) 303-9574 or email Tamara.West@FLHosp.org
Florida Hospital is extremely grateful for Florida Emergency Physicians (FEP) leadership and generous commitment to the well-being of our entire community. Through their generous gift of $2 million, our two organizations will continue to impact our community through excellence in emergency care.

The mission of FEP—Dedicated to Excellence in Emergency Medical Care, marries well with Florida Hospital’s mission to—Extend the Healing Ministry of Christ. Through their support of the Florida Hospital Emergency Department, FEP is dedicated to advancing the education and training of emergency medicine physicians.

Each year, 18 physician residents are being trained in emergency medicine within the three year program at Florida Hospital. Through this excellent physician training in emergency medicine, physicians remain in Florida and continue to serve our Central Florida community, beyond their residency. With the generous support of FEP, physicians will continue to be trained in excellence as well as given the tools they need to save more lives.

Ed Gilbert once told an interviewer that in his earlier years, he aspired to be like Mick Jagger; he and some friends were in a band that had a Top 40 hit in 1970. Today, while Ed is not the lead singer in a rock band, he is the “Head Thinker” at Absolute Thinking, a marketing solutions company in Central Florida. Over the years, Ed has used his thinking to help the lives of countless others in Central Florida. That is why Ed Gilbert is truly a philanthropic rock star.

It is Ed’s passion for fighting cancer that drives him in his volunteer efforts as the Chair of Florida Hospital Cancer Institute’s (FHCI) Foundation board. Ed was drawn to FHCI because several immediate family members and close friends have passed from complications related to cancer. “I have had three family members and two close friends die of cancer and others are currently battling,” Ed said. “It gives me a great sense of pride to spend my time helping others.” And that is just what Ed does.

Over the past three years, Ed’s efforts as a board member have helped FHCI raise more than $675,000. He is not finished yet – Ed’s goal is to raise more than $1 million in funding for FHCI, and anticipates reaching that goal by the end of this year.

This year FHCI was able to bring a unique capability to our research and patients: Circulating Tumor Cell (CTC) collection. Researchers use live cells gathered from CTC collection for early detection of cancer, minimally invasive monitoring of current treatment, and for drug discovery research to design personalized treatment for tumors resistant to current therapy. This innovative equipment is just one of several initiatives volunteer board members at FHCI, guided by Ed Gilbert’s leadership, have chosen to support for the benefit of the Central Florida community.

We are grateful to Ed Gilbert for improving the lives of the patients we treat through his commitment to volunteer service, his heart for philanthropy, and his compassion for adults and children battling – and beating – cancer with the Florida Hospital Cancer Institute.

Dear Friends,

As supporters of Florida Hospital, you will be pleased to know that our hospital was listed in the top fifty U.S. Hospitals, by U.S. News and World Report in the following eight areas:

- Cardiology and Heart Surgery - #32
- Diabetes and Endocrinology - #28
- Gastroenterology and GI Surgery - #47
- Gynecology - #10
- Nephrology - #31
- Neurology and Neurosurgery - #38
- Pulmonology - #34
- Urology - #36

Because of this, we were given the commendation of being the No. 1 ranked hospital in Florida.

While we are thankful for this "Good House Keeping" seal of approval, the loyalty and support of community members like you, the commitment of our physicians, nurses and other personnel and the care of our patients, as our No.1 priority, are really what matter most.

To this end, we want to thank you for your help and support in helping us pursue the vision of a global leadership that provides highly advanced, faith-based, sustainable health care. You are key to the realization of this vision.

When we challenged you in 2004 with our Centennial campaign of $100 million, your response was impressive. You not only surpassed the goal by raising $110 million, but you did so one year ahead of schedule. Your achievement was celebrated at Golden Gala XXVII. The 100th anniversary was commemorated with the opening of the Ginsburg tower along with patient towers at Altamonte, East Orlando, Celebration, Winter Park, as well as the Walt Disney Pavilion for children.

These investments enabled us to recruit leading physicians and clinical staff. Because of their skill, we are able to extend Christ's ministry of hope, health and healing. The letters and stories of appreciation from our patients and their families are the highest recognition we can receive. We want to thank you for helping us shape Florida Hospital and its ministry. Your generosity has made these accomplishments a reality. Your commitment to excellence is an inspiration to us.

The fact that you have chosen to embrace the Healthy 100 as the focus of Florida Hospital's second century is exhilarating. We believe that the Healthy 100 is essential to address the health challenges our country faces. Rightly managed, this focus can position our hospital for Global Leadership. To make this journey possible, the Foundation has embraced a campaign goal of $150 million. Early returns show that you have already raised $80 million in 1.5 years of a five-year public campaign.

As we work together, we will create a healthy future for our community. We hope you take a moment to celebrate what God has done through all of us – We hope you feel the satisfaction of caring for His children with excellence!

Yours for Health,

Lars Houmann, FACHE

There is perhaps no greater need these days than improved health, and that mounting need continues to inspire the Winter Park Health Foundation in all areas of our work. It also keeps us focused on our founding mission: to make a positive difference in people’s lives by creating the healthiest community in the US. Florida Hospital, with its focus on health and wellness services can be provided to residents through several communities we serve healthier. Two recent examples include support for the Florida Hospital projects and programs, especially those at Winter Park Memorial Hospital, a key partner in making the Winter Park Health Foundation’s mission a reality.

— Winter Park Health Foundation
I was invited to attend the Runway for Hope event at Florida Hospital several years ago but was reluctant to attend. What no one at the hospital knew was that my mom was going through treatment for ovarian cancer and, quite honestly, I was not sure I would be able to handle the emotions I knew I would feel at the event. But I attended, and it changed my life. I saw women and children exhibiting such strength and courage, just like I witnessed with my mom. I decided then that I needed to be involved and see what kind of difference I could make.

A few events later and after some meetings with Florida Hospital Altamonte administrator, Rob Fulbright, I joined the Florida Hospital Altamonte Foundation Board. The Eden Spa at the Orlando campus had just opened, and I became a champion for the cause. Needless to say, I was thrilled when Rob announced he hoped to have one at the Altamonte campus. I was asked to chair the committee to raise the funds for the Eden Spa at Florida Hospital Altamonte. With God’s grace and much hard work from a wonderful team, I’m happy to say the spa opened this past September and is making a huge impact in the community. I was inspired to put my time, talent and treasure into the spa in particular because knowing what my mom went through and how it impacted her emotionally as well as physically left a mark on my heart. I want all women to know that God created them as beautiful images of himself and that they have a place to go where they can be pampered and realize that their true beauty comes from inside. I feel passionate about Florida Hospital and all it stands for. I appreciate its extension of Christ’s healing hand and believe that treating the whole person — mind, body and spirit — separates them from other hospitals. Florida Hospital is on the forefront of so many medical advancements right now that I wait with anticipation to see how much farther they’ll go with the philanthropic support of the community.”

— Kristy Dunlap
“Building hospitals for the Florida Hospital community for the past 18 years has given us a unique perspective on the importance of giving back, and Florida Hospital has been both our client and our friend. No one leads by example like Florida Hospital! It is an organization filled with strategic, compassionate and caring individuals and a singular focus and determination in extending the healing ministry of Christ, and they inspire us daily. We are honored to be a part of their mission through giving, along with building health care facilities that truly make a difference in people’s lives.”

— Tim Dwyer, Regional President, Brasfield & Gorrie
“As a family and as business owners, we have been blessed in many ways and feel it is our obligation to give back. We believe members of our society take the local hospital for granted until they need to go to one. At that point they want the hospital to be clean, neat, professional and have the best doctors, etc. I think everyone should get involved in their local hospital before they need to go there, if possible, so they know what to expect and have a comfort level that the hospital is striving to be the best caregiver it can be. They should then find ways to have a positive impact on the local hospital.

From our involvement with Florida Hospital, we see a professionally managed hospital with the right motives to see the recovery and success of their patients. We also see the continued growth of the local community through their commitments to improve everyone’s health by providing quality health information and by providing services for free when able.

We are proud to be involved with Florida Hospital.”

— Jeff and Debra Condello
We have been inspired to give by people who have shown incredible courage in difficult circumstances. People like my good friend Stephen Gidus, who lost his hard-fought battle with cancer. I would come to Florida Hospital to visit him, and I was so impressed and inspired by Stephen and by the compassionate team of care providers assembled to help Stephen and his wife.

Betsy and I have always felt that we all have an obligation to give back and to do so cheerfully. Seeing firsthand how Florida Hospital operates and knowing many of the staff personally and professionally, we feel comfortable giving to such a caring and committed organization. We choose to support the Breast Cancer Care Fund for underserved women and the Pediatric Bone Marrow Transplant Program because they benefit those most vulnerable and in need.

Contributing your time, effort and genuine concern along with a financial contribution helps to heal those in need. We have seen this impact on our community from one individual to another, and on a larger scale that encompasses thousands through community running and walking events and educational programs.”

— Jon and Betsy Hughes,
Co-owners, Track Shack
transplant created an opportunity for her to live life to the fullest. Several years have passed and she is so grateful to say that she is free from insulin therapy and the negative impact of diabetes.

Seeing what a gift a transplant can be, it is my privilege to give back through the 1908 Society to help Florida Hospital provide a transplant to someone else’s sister.”

— Stephanie Lind

“I am so pleased that the Florida Hospital Transplant Institute is celebrating its 40th year of saving lives! After years of watching my sister struggle physically, mentally, and spiritually with type 1 diabetes, she received a phone call that changed her life. A pancreas transplant was available for her. What a gift! After years of different treatments, clinical trials, good days and bad ones, a pancreas
Throughout my life numerous friends and family have motivated and inspired the passion I have to give back, but none like the influence of my Grandfather. His leadership to motivate our family, his strength to fight through colon cancer, and his passion to help those in need truly molded me. I have to give back, but and inspired the passion and leadership to motivate our families have motivated me. I truly believe heartfelt donations are honored in the mission here at Florida Hospital, and stand proud in furthering it by designing to the Florida Hospital Diabetes Institute and the Employee Emergency Fund. I decided my generosity should be linked to resources designated to the Florida Hospital Diabetes Institute and the Employee Emergency Fund. I decided my generosity should be linked to resources that personally move me. I truly believe heartfelt donations are honored from above and hold the power to heal all they touch. I am a firm believer in the mission here at Florida Hospital, and stand proud in furthering it by donating to my chosen beneficiaries. As noted in Proverbs 11:24-25, “One gives freely, yet grows all the richer; another withholds what he should give, and only suffers want. Whoever brings blessing will be enriched, and one who waters will himself be watered.” I hope that through my efforts and the efforts of other members, the 1908 Society will continue to positively impact our community, and allow others to believe and extend the words of this scripture.”

Florida Hospital Foundation  
2013 Executive Board
Nine-year-old Mark McHale is sharing his generosity this summer by donating the proceeds from his lemonade stand to help “Squeeze Out Cancer” for kids at the Florida Hospital Cancer Institute. Mark collected $168 to support kids battling cancer at Florida Hospital Cancer Institute by building and managing his own lemonade stand right here in Central Florida. Starting from scratch Mark drew blueprints, strategized a marketing plan, and built the structure that would help run his business.

Inspired by his generosity, Florida Hospital Foundation has helped Mark to take this pay-it-forward business model world-wide with a virtual lemonade stand on the internet using CelebrateGenerosity.org. This virtual, online-giving platform allows friends, family, and community members inspired by Mark’s generosity to support his campaign for kids with cancer.

Did we mention Mark’s virtual lemonade stand has zero calories? Don’t worry about your waistline. This virtual lemonade will only touch your heart and positively impact kids battling cancer at Florida Hospital Cancer Institute.

Paying it forward with CelebrateGenerosity.org is easy when you can celebrate anything. Here are a few ideas: birthdays, anniversaries, your first 10K, summer, graduation, survivorship, weddings, or your first lemonade stand.

To help Mark “Squeeze Out Cancer,” or to create your own online-giving campaign, visit www.CelebrateGenerosity.org

HOW WILL YOU CELEBRATE YOUR GENEROSITY?
Explore Our New Website

We invite you to interact with our Florida Hospital Foundation website. This new addition to our interactive media has been redesigned and optimized for mobile devices.

**What does “optimized for mobile” mean?**

Optimizing for mobile means the website adapts to the device you are using to access it.

**Sixty-nine percent of web users are accessing the Internet daily on their mobile device.**

By making our site mobile “friendly” we hope that you will stick around and explore all of our new features!

You can stay up-to-date with Foundation news and events by exploring the “What’s Happening” section— a LIVE stream of real-time, relevant content, where you can read blogs, watch videos, learn about events and much more!

DOWNLOAD GENEROSITY APP

Please use this app to view the many ways that Florida Hospital is transforming health care.

**Together, we are creating something extraordinary, because your Generosity Heals.**
Golden Gala

XXXIII

November 24 and 25, 2013
Disney’s Coronado Springs Resort
