Wayne M. Densch Charities partners to provide transitional housing
Dear Friends,

I love Florida Hospital. My mom was a nursing student living in a dorm right next to Lake Estelle back in the ’60s. That’s where my dad proposed to her. I wouldn’t be here without Florida Hospital.

When my wife and I first found out we were having twins, we also found out they were monoamniotic. What that means is there’s a 50 percent chance they don’t survive because they share one amniotic sac, and they can get wrapped up in the umbilical cords.

After 10 weeks of full monitoring in the perinatal high risk unit, our girls (Eve and Emma) made it! Soon after, we got the news that Emma had to have open-heart surgery at two months old. My girls wouldn’t be here without Florida Hospital.

Each year, Florida Hospital continues to advance its mission of extending the healing ministry of Christ. Throughout the years, your gifts have enabled Florida Hospital to become the #1 hospital in Florida staffed by experts who have access to the best technologies and most advanced approaches to therapy and treatment.

Thank you for taking the opportunity to make a measurable difference and an investment in the future of our community. Your support continues to change lives and build a stronger community. Your personal generosity shows your support for our community and for that, we are most grateful.

It is my honor to serve the health care needs of Central Florida in my new role as President and CEO of Florida Hospital and the Central Florida region of AHS. I’m especially honored to work beside you.

Sincerely,

Daryl Tol
When Leonard Williams, Trustee of Wayne M. Densch Charities, was touring a surgical suite at the Florida Hospital Epilepsy Center in 2013, he was very interested in the high-tech instruments that have helped make the Center the number-one Level IV epilepsy program in the nation. Epilepsy is a special passion of Leonard Williams, who lost his son, Douglas, to the disease in 2003. Douglas was just 40 years old.

Dr. James Baumgartner, a neurosurgeon and the Center’s surgical director, was excitedly talking to Williams about the mechanics of the Center’s MEG – a magnetoencephalograph. The MEG, funded in part through Wayne Densch Charities, provides brain-mapping, a critical tool in diagnosing and treating neurological disorders, especially epilepsy. As Dr. Baumgartner was explaining the intricacies of the MEG’s functionalities, Williams stopped him.

“What else do you need?” Williams asked Dr. Baumgartner. Slightly taken aback, Dr. Baumgartner said he could use a research assistant to help him inch closer to a cure for epilepsy.

“How much will that take?” Williams asked. When Dr. Baumgartner threw out a figure, Williams didn’t bat an eye. He turned to his companion, who also happened to be the treasurer of Wayne Densch Charities, and asked another question: “Can we make that happen?”

Leonard Williams, Trustee of Wayne M. Densch Charities

Making things happen is what Williams has done his entire life. After a long career with Tom’s Foods, Williams was recruited by Wayne Densch in 1991. Along the way, the two became close friends. When Densch died in 1994, the charitable programs that he had built through millions of dollars of community support expanded significantly under Williams’s leadership.

When the Wayne Densch Center for the Homeless opened in 1999, its program of sheltering the homeless and giving them the tools they needed to escape the cycle of poverty was ahead of its time. By working with the Coalition for the Homeless, Williams and the Wayne Densch Charities were able to provide the comprehensive care and support needed to get the homeless back into society.

In 2013, Williams approached Florida Hospital Foundation with a proposition that would involve Florida Hospital in a more direct way with helping the homeless in our community. Would Florida Hospital be interested in receiving the Wayne Densch Center for the Homeless as a gift? This 64-unit condominium complex has been serving as transitional housing for the homeless in Central Florida for the past 16 years. The idea resonated with Florida Hospital’s leaders as they were also looking for ways to work even more extensively within the community to impact the health of our neighbors. After months of exploration and planning, an agreement was reached and Florida Hospital became the guardian of Wayne Densch’s legacy of helping the homeless in the Orlando community.

The donation of the Wayne Densch Center for the Homeless comes at a time when Central Florida and the nation are intensifying their examination of the homeless crisis. In 2014, Florida Hospital pledged $6 million to put chronically homeless individuals and families into permanent homes.

We are very grateful to Leonard Williams and the Wayne M. Densch Charities, our Philanthropists of the Year for 2015, for their commitment to helping Central Floridians in need, and for entrusting Florida Hospital with continuing their legacy of compassion.
Florida Hospital is proud to have won the Florida Blue Foundation Sapphire Award for its Bithlo Dental Care Access Program. Winners in three categories were honored at Florida Blue’s Symposium and Luncheon in April 2016. There were 112 nominees statewide.

In addition to a $50,000 award for the dental program, Florida Hospital received a hand-blown glass sculpture of a blue flame created by renowned glass artist Nathan Nardi of Decatur, GA.

The Sapphire Award was created in 2005 to honor individuals, programs and organizations that have done stellar work in providing high quality health care in their communities. This is the second award given to this program by Florida Blue. The Florida Hospital Foundation and Florida Hospital are proud to be a part of the Bithlo Transformation Effort. Here is its story.

In the early 1900s, Bithlo was a bustling, incorporated town in east Orange County. Economic hardship hit the city in 1929. Outstanding debt and legal problems caused it to cease functioning on its own.

In the decades since, the 12-square mile community, 30 minutes east of downtown Orlando, has fallen into crushing poverty. Hundreds of acres of junkyards, illegal dumps and leaky gas stations cover the landscape.

Little to no water treatment has led to groundwater contamination. Calcium in the drinking water needed for healthy teeth and bones has been depleted. Many of the 8,000 Bithlo residents are unemployed and live in substandard housing. They had no access to health care.

In 2011, Florida Hospital joined United Global Outreach to form the Bithlo Transformation Effort, a long-term plan to restore infrastructure, improve housing and transportation, facilitate education and provide health care to residents. This became the Hospital’s first local mission initiative.

Dental care is of special concern for Bithlo residents. Poor water quality and little personal dental hygiene have led to missing or rotten teeth and gum disease for many children and adults. These problems bring a substantial amount of pain and embarrassment. Trips to the emergency room were common, but difficult. In desperation, some people used horse tranquilizers to self-medicate.

In 2012, the Florida Blue Foundation generously awarded two years of seed money to Florida Hospital to establish the Bithlo Dental Care Access Program. This program provides free, high quality preventative, restorative and emergency-based dental care and education to uninsured residents.

In 2016, Florida Blue Foundation awarded Florida Hospital a $50,000 bursary. The hospital received a hand-blown glass sculpture of a blue flame created by renowned glass artist Nathan Nardi of Decatur, GA.

The Sapphire Award was created in 2005 to honor individuals, programs and organizations that have done stellar work in providing high quality health care in their communities. This is the second award given to this program by Florida Blue. The Florida Hospital Foundation and Florida Hospital are proud to be a part of the Bithlo Transformation Effort. Here is its story.

In the early 1900s, Bithlo was a bustling, incorporated town in east Orange County. Economic hardship hit the city in 1929. Outstanding debt and legal problems caused it to cease functioning on its own.

In the decades since, the 12-square mile community, 30 minutes east of downtown Orlando, has fallen into crushing poverty. Hundreds of acres of junkyards, illegal dumps and leaky gas stations cover the landscape.

Little to no water treatment has led to groundwater contamination. Calcium in the drinking water needed for healthy teeth and bones has been depleted. Many of the 8,000 Bithlo residents are unemployed and live in substandard housing. They had no access to health care.

In 2011, Florida Hospital joined United Global Outreach to form the Bithlo Transformation Effort, a long-term plan to restore infrastructure, improve housing and transportation, facilitate education and provide health care to residents. This became the Hospital’s first local mission initiative.

Dental care is of special concern for Bithlo residents. Poor water quality and little personal dental hygiene have led to missing or rotten teeth and gum disease for many children and adults. These problems bring a substantial amount of pain and embarrassment. Trips to the emergency room were common, but difficult. In desperation, some people used horse tranquilizers to self-medicate.

In 2012, the Florida Blue Foundation generously awarded two years of seed money to Florida Hospital to establish the Bithlo Dental Care Access Program. This program provides free, high quality preventative, restorative and emergency-based dental care and education to uninsured residents.

Funds pay for a dental coordinator, who lives in the community, to run the program. Volunteer dentists and hygienists provide care to patients on weekends. Thousands of children have received free preventative dental services and oral hygiene instruction at school.

Heart of Florida United Way currently funds the Bithlo Dental Care Access Program through a generous three-year grant. Philanthropy has restored smiles to hundreds of children and adults in this community. It is an honor to receive the Sapphire Award.
The Lifetime Donor Hall of Fame recognizes friends of Florida Hospital whose habit of generosity has made a significant impact on health care in our community with cumulative lifetime giving of $25,000 or more. This list reflects cumulative lifetime giving through December 31, 2015.

Bill and Judy Carrico
VOLUNTEERS OF THE MONTH
February

I have been a member of the Florida Hospital family since 1977. I was an employee of the hospital and my daughter graduated from Florida Hospital College of Health Sciences and worked at several of Florida Hospital’s campuses. I have been both a patient and a family member of several patients. I have always been touched by the love, caring and Christian ethic of the employees and medical staff. It has been a gift to me to be able to give back some of the caring and compassion that has been shown to me and my loved ones.

My small contribution to the Bartch Transplant House at Florida Hospital through our Tables Extraordinaire fundraiser could not have been possible without the gifts of time and talent given by my two co-chairs, Catherine Kassianides and Chef George Paterakis. Their dedication and tireless efforts made our dream of supporting such a worthy cause a reality.

Joyce Yarbrough

I am extremely fortunate to have the support and fellowship of an amazing team, who together with my co-chairs, Joyce Yarbrough and Chef George Paterakis, have made Tables Extraordinaire a premier Orlando event for six years now. Through everyone’s efforts, we have been able to raise awareness and funds for the Bartch Transplant House at Florida Hospital, which will be a home away from home for patients and their families in the Orlando area. It is my honor and privilege to work closely with so many family members, friends and supporters. I truly cherish the friendships made and the experiences shared. I have always considered volunteering as the ultimate payback for thanking God for His abundant blessings.

VOLUNTEER OF THE MONTH

May

“I have always been happy to help raise up the greater good and have always felt Florida Hospital’s values, mission and vision to extend the healing ministry of Christ while being grounded in faith and wellness align with my mission. My life’s mission is to feed and nourish the world through stomach, mind and spirit. I, too, am committed to being a steward of my community — striving to work with integrity and compassion while aligning myself with a team of like-minded individuals to keep balance in our surroundings. I am especially proud to be a part of Florida Hospital’s Gourmet Soiree committee, acting as liaison between our community and Florida Hospital Foundation. This event shows what an integral partner Florida Hospital is and how its vision of excellence, stewardship and teamwork can bring people together in a positive way.”

Emily Ellyn

GRACIA B. ANDERSEN HALL OF HONOR

VOLUNTEER OF THE MONTH

June

I have a passion for Global Mission Initiatives (GMI) at Florida Hospital because it has helped to widen the boundaries of my heart by opening my eyes to the needs of a much larger world. On the GMI mission trips I have been part of, it has been my joy to witness the employees of Florida Hospital extend the healing ministry of Christ through their generous gift of time, talent and love to those who are in need. I have seen their hearts grow with mine!

Julie Hounsman

VOLUNTEER OF THE MONTH

July

The opportunity to be a part of the renewal of a community asset in Winter Park is one reason I choose to volunteer. When you think of the opportunity to bring a new medical facility to the community, and replace one that is 60 years old, and you are passionate in your belief – there is no greater feeling. Another reason I give back is to provide the medical team a facility that will allow them to deliver the very best health care to our community.

VOLUNTEER OF THE MONTH

August

“It has been a privilege to provide pro bono architecture services for Global Mission Initiative’s (GMI) many hospitals, clinics and footprints abroad. There is much to do beyond our border and the world needs so much love, hope and prayer. I applaud the work that Florida Hospital and GMI continues to provide abroad, and I am honored to be a part of their glorious, selfless mission. God is truly creating miracles abroad through GMI.”

Elena Pathak

The keen sensitivity to the needs of others, the pursuit of research and Florida Hospital’s holistic approach to better health through mind, body and spirit readily appealed to me.

As I met with representatives at Florida Hospital Cardiovascular Institute (FHVCI), it was easy to see their dedication to improving heart health and saving lives. In addition, I observed the unique commitment and genuine caring of the doctors, nurses, staff and volunteers at Florida Hospital. I was eager to participate, and I have enjoyed every moment.

I look forward to supporting Florida Hospital Foundation and FHCVI as they continue to make a difference in the lives of so many. It’s highly rewarding to be involved, and I encourage others to help the Florida Hospital Foundation and FHCVI reach more with philanthropic support. They’re working diligently each day to ensure a healthy Central Florida.

It was my honor to serve alongside the Circle at Florida Hospital, knowing that it will help 35. In 2015, we helped raise funds to benefit doctors and nurses change lives on a daily basis. I had the great privilege of being able to share the generosity of not only the Florida Hospital Circle of Friends, but the attendees of Florida Hospital Golden Gala and the members of the Central Florida community through my time of serving as Chairperson of Golden Gala 35. In 2015, we helped raise funds to benefit the construction of the Barcht Transplant House at Florida Hospital, knowing that it will help many families whose loved ones are receiving life-saving transplants for many years to come. It was my honor to serve alongside the Circle of Friends Executive Board and members. Thank you all for an enchanted year!

Kuni Tran
This list recognizes all gifts of $1,000 or more received in 2015. Donors’ cumulative lifetime giving is recognized beginning on page 6.
A veteran of the technology industry and reputable participant in economic development circles, I moved to Central Florida in 1994 with my wife, Carole, and daughter, Lauren. Straightaway, I became strongly involved with the Orlando community, serving on Florida Hospital’s Executive Board and becoming chairman of the committee that worked to build the Ronald McDonald House.

Back in 1994, I broke my leg and was rushed to Florida Hospital’s emergency room, where I received first-class care. The ER medical staff handled everything perfectly, and they even made all the arrangements for my home care. I am ever so grateful to Florida Hospital; excellent care – wonderful people!

Carole and Darrel Kelley

“...wanted to further support the physicians, programs and advanced technologies of CVI that can help improve the heart health of women across Central Florida.”

Dena Jalbert

Dena Jalbert
I have been so truly impressed with the people at Florida Hospital. It is inspirational to see the spirit with which they pursue the Florida Hospital mission. Watching them in action makes it is easy to want our team to be part of this dedicated organization, and to help make health care more productive and successful for all who need it.

Leaders

“The Haleski Foundation and the Orlando Solar Bears are proud to partner with Florida Hospital in its dedicated service to the community. As a family foundation, we have focused many of our efforts on the health, education and the overall benefit of children in the Orlando area. The Florida Hospital for Children’s playroom was an ideal opportunity for us to partner with Florida Hospital and make an impact in the lives of many. The Orlando Solar Bears hockey organization has helped to support our efforts through player and mascot appearances, which never fail to bring smiles to children and families dealing with illness. It is our hope that the playroom will provide a fun and encouraging atmosphere for children at Florida Hospital for many years to come.’’

The Haleski Foundation and the Orlando Solar Bears

“Eric and I consider it an opportunity to be members of the Winter Park Memorial Hospital Family Board. Helping organizations in our community who help others has always been very important to us.

Then last year with the birth of our grandson, Eric Colton, at Winter Park Memorial Hospital, a Florida Hospital, we realized first-hand how very important it is for our community to continue having a first class hospital and medical team like the amazing doctors and nurses we met during his birth.

We know first-hand what a blessing it is to have Winter Park Memorial Hospital as our partner and neighbor.”

“It was easy to embrace the Florida Hospital system as new residents to Central Florida with services that included physician referrals, local hospitals, and a Level 3 NICU. After 13 years as owners of Seminole Harley-Davidson in Sanford, we still appreciate what Florida Hospital does for the community, and have supported programs for Florida Hospital Eden Spa and the Heroes for Babies event benefiting maternal education programs for underserved and uninsured women at Florida Hospital Altamonte’s Baby Place.”

BREAST CANCER CARE FUND PROVIDED MAMMOGRAMS & DIAGNOSTIC TESTS TO 1,548 PATIENTS RESULTING IN 13 DIAGNOSES

Florida Hospital Cancer Institute
How “Smarter Giving” Gave Peace of Mind to Foundation Donor

It was the worst time of her life, says Athina Dever. Athina’s husband, John, was a patient at Florida Hospital following a serious accident. He spent more than a month in the hospital, and Athina spent her days and nights at his side.

One night, a staff member turned to Athina and asked, “How are you? Have you gotten anything to eat? Are you sleeping at all?” Athina says she was “blown away” by the staff’s compassion. After John passed away, Athina needed to change the beneficiary to her 401(k), and as she says, “It really was a no-brainer. Florida Hospital was it.”

There are tax benefits to Athina’s generous decision. If she hadn’t designated Florida Hospital the beneficiary of her 401(k) — also called IRA Charitable Rollover — the remainder would have been included in her estate, and the entire amount would have been taxed. And since charitable organizations do not pay taxes, that situation is avoided altogether.

You may have other reasons for considering a planned gift to Florida Hospital — perhaps you support our mission of extending the healing ministry of Christ, or wish to leave a lasting legacy. We invite you to consider a gift to Florida Hospital, and how it can make an impact in Central Florida and beyond today, and how it ensures a lasting legacy for the future.
Jim Wagner and his Italian Greyhound, Aluzja, have been volunteering at Florida Hospital since 2013. Every week, their visit provides hope and healing to the patients at Florida Hospital for Children.

With the help of his owner, Aluzja pledged his 15th birthday to support pet therapy by creating a personalized, online-giving page at FloridaHospitalFoundation.org. In lieu of gifts, Aluzja asked his friends to help bring joy to patients, doctors, nurses and staff with a gift to his giving page. In partnership with generous friends in the community Aluzja raised over $400 for the Pet Therapy Program at Florida Hospital for Children. This program provides motivation, encouragement, recreation, rehabilitation and other services to patients and their families through the comfort of furry friends.

You can celebrate with Aluzja and join him in bringing hope and healing to patients at Florida Hospital for Children by visiting PetTherapyBirthday.com.

Pledge Your Birthday or Life Milestone with a Personalized Giving Page

Are you inspired by Aluzja? Do you have a special event coming up? Celebrate your next birthday, anniversary or special life milestone by creating a personalized online-giving page at FloridaHospitalFoundation.org. Invite your friends and family to join you in supporting your favorite cause at Florida Hospital. How will you celebrate generosity?

Learn more at www.FloridaHospitalFoundation.org
One of the most amazing aspects of an eagle is its keen vision. Humans can see three basic colors while overachieving eagles can see five. An eagle’s eye has a million light-sensitive cells per square millimeter of retina, five times that of a human’s.

It’s no wonder, then, that the Boy Scouts of America chose the eagle as a symbol of their highest attainable rank. The Eagle Scout is the culmination of a long journey that usually begins in first grade as a Cub Scout.

So it began for Chad Grodi from Longwood, a Lake Brantley High School senior who envisioned becoming an Eagle Scout for most of his life, and made it his goal when he entered high school. The 18-year-old joined the Cub Scouts eleven years ago, and recently completed all the requirements necessary to be awarded the rank of Eagle Scout.

It was a vision that might not have happened had it not been for the support of his scouting family. When Chad was in the sixth grade, he came home from a camping trip to the devastating news that his father had died suddenly.

“When his dad passed away, Chad’s scout leaders really stepped up,” says Theresa Grodi-Kennon, Chad’s mother. “They rallied around him and taught him how to be a man by caring about himself and others.”

“We knew that Chad was going to have this void in his life,” says David Burwell, Chad’s scoutmaster. “We let the boys know that outside of the hour-long meeting on Tuesdays that they needed to take care of each other.”

Less than four percent of all Boy Scouts are able to attain the rank of Eagle Scout, says Burwell. In addition to earning a total of 21 merit badges and serving in at least one position of responsibility in the troop, the Scout must plan, develop, and give leadership to others in a service project helpful to a religious organization, school, or the Scout’s community.

For his service project, Chad planned, designed and executed a bird garden and sanctuary at the Robison Residence at Hospice of the Comforter in Altamonte Springs. The Robison Residence is a home-like, six-bed facility on the campus that hosts patients who have no one to serve as a caregiver in their own home.

Last year, the Robison Residence provided 35 patients with specialty residential care.

Chad was familiar with services at Hospice of the Comforter because he and his siblings attended grief counseling services in the sixth grade after his father died. Grief counseling is one of the free programs provided by Hospice of the Comforter, and some of the exercises for Chad and his siblings were specially designed to “help them communicate how they felt through a child’s eyes,” says Theresa Grodi-Kennon. “It was very helpful for them,” she adds.

It was natural, then, for Chad to choose Hospice of the Comforter as the site of his Eagle Scout project. One of the best aspects of scouting, says Theresa Grodi-Kennon, is that it “gives kids that avenue to give back to the community.”

An Eagle Scout project is designed to provide service to others and demonstrate leadership abilities, says Scoutmaster Burwell. For the Robison House project, Chad had to plan the project from start to finish, including learning such seeming minutiae as what types of florae were best for attracting birds.

Chad was also responsible for raising funds - $550 - to pay for the project, and for organizing the nearly 15 volunteer laborers who pitched in over two days in November last year, removing old plants and installing healthy plants; mulching; repairing and re-staining a raised-bed planter, and assembling new benches onsite.

At the end of the project, as the volunteers started to pack up their tools and head home, Chad says a Robison House resident came out to inspect their work. “He looked at everything and complimented us on a job well done,” Chad says. “That felt really good.”

(Chad Grodi is on track to graduate with a 4.23 grade-point average. He is in the top 10 percent of his class, says his proud mother)
At Florida Hospital, our nurses care for their patients as if they were caring for their own family members. The profession can be grueling, exhilarating, demanding and rewarding work. Often, patients or their family members show their gratitude for the care they receive by making a gift to Florida Hospital Foundation. Sometimes, they want to do a little more.

In her 14-year career as a nurse, Sonja Stone said she had never heard anything like it: “In January, when I opened up my email and read that the brother of a patient who died three years ago wanted to thank me, I couldn’t believe it.”

Florida Hospital Foundation staff tracked down Sonja, who left Florida Hospital in 2014 for a job opportunity in the Jacksonville area. She was working on 5800 – an intensive-care unit – on Christmas Eve, 2012. That night, one of her patients, Timothy O’Hey, passed away. Tim’s wife, Kelly, was left to comfort their daughters, three year old Grace and Chloe, who was less than four months old.

Less than a month after Tim’s death from cholangiocarcinoma – cancer of the bile ducts - the Foundation began receiving gifts in his memory.

Kelly O’Hey said she knew her husband would have wanted to pay tribute to the excellent care he received from the nurses on the unit. Tim was a generous, loving person who made friends fast, and kept them forever. Tim’s generosity continues today – two people received the gift of sight from his donated corneas.

One of the gifts the Foundation received, less than a month after Tim’s death, was from John O’Hey, Tim’s older brother. John has made a gift to the Foundation every month for the past three-and-a-half years in memory of his brother, and as a tribute to the care Tim and his family received. John said it takes just a few minutes to draft a check each month, but for those precious moments, his brother Timmy is at the forefront of his thoughts.

When contacted by the Foundation to thank him for his ongoing gifts, John said his one regret about his family’s Florida Hospital experience was that he never got the chance to thank the nurses for the excellent care they provided. In his fog of anguish after his brother died, he had never even thought to ask Tim’s nurse for her name. John especially wanted to thank her for the way she helped ease Tim’s passing, and vowed to travel from his home in Hawaii to do just that if we could help find her.

On a Friday in April 2015, John, Kelly, Grace and Chloe met Sonja again for the first time since that sad Christmas Eve in 2012. And John – a graduate of The Citadel and 30-year Marine Corps veteran – went to the 5800 Intensive Care Unit with his family to complete his mission of thanking the men and women who go into battle every day for people like his brother. The family met and thanked each nurse on the unit, and Grace handed out cookies as a simple token of appreciation. Jill Livingston, the unit’s nurse manager, told the O’Hey family, “You have no idea how much this means to them.”

John, for his part, said he couldn’t imagine why the nurses were thanking him. To his way of thinking, his gesture – a handshake and a cookie - paled by comparison to the emotions evoked by memories of the outstanding care his brother received.

“As Tim would say, ‘To make a long story short…’, in a situation with as much tragedy as I could imagine, Florida Hospital was there to provide the care and compassion my family needed. For that,” John said, “I will be forever grateful … and every month when I make my small donation, I have my time with Tim, but I also whisper a small thank you to the nurses and staff of 5800.”
